INSTRUCTIONS for
ANNUAL UTILIZATION REPORT of
SPECIALTY CLINICS - 2015

These are the instructions for completing the 2015 Annual Utilization Report of Specialty Clinics. This document also contains a glossary of terms used in the Report.

Please call the Office of Statewide Health Planning and Development (OSHPD) Technical Support at (916) 326-3854 or Specialtyclinics-alirts@oshpd.ca.gov for questions or for further clarification.

GENERAL INSTRUCTIONS

1. Section 1216 of the Health and Safety Code requires every specialty clinic to file with OSHPD an Annual Utilization Report that contains utilization data for its licensed services. Failure to file a timely report may result in a suspended license by the California Department of Public Health (CDPH) until the report is completed and filed with OSHPD.

The standard report period for Annual Utilization Reports covers the period from January 1 to December 31, unless there has been a change in licensure (ownership) during the calendar year. In this case, the former licensee is responsible for submitting a final report that covers from January 1 to the last date of licensure, while the new licensee is responsible for submitting an initial report that covers from the effective date of licensure to December 31.

Note: Clinics are encouraged to request permission to submit a combined 12-month report if there has been a change in licensure during the calendar year. The former and current licensees need to agree which licensee will be responsible for submitting the report. Please send your request to file a combined report by e-mail to Specialtyclinics-alirts@oshpd.ca.gov, or contact OSHPD Technical Support at 916-326-3854 for instructions.

2. If a clinic opens or resumes operations during the year, the first utilization report would cover from the effective date of licensure to December 31. If a facility closes or suspends operations during the year, the final utilization report would cover from January 1 to the date of closure.

3. All clinics are required to submit their Annual Utilization Reports using OSHPD’s web-based Automated Licensing Information and Report Tracking System (ALIRTS) for calendar year 2002 and thereafter. To use ALIRTS, facilities must have a PC with Internet access equipped with Internet Explorer (IE) Version 5.0 or higher with 128-bit encryption. Macintosh computers and Netscape browsers are not compatible with ALIRTS. Minimum PC requirements include a 133 MHz processor, at least 64 Mb of RAM, a 28.8 bps modem, and a printer. The PC and browser must be set to accept cookies and to open another window.
4. **Do not submit the hardcopy report to OSHPD.** Only clinics with prior formal written permission for modification of submission may use a different submission format.

5. Annual Utilization Reports are due on or before February 15 if the report is for a full 12-month report period. If the facility closes, the report is due 14 days from the date of notification from OSHPD.

   **Note:** If February 15 falls on a weekend or holiday the due date will be the first working day after the weekend or holiday

6. Enter all amounts as whole numbers. Enter financial data to the nearest dollar. Do not use decimals, commas, dollar signs, spaces or special characters.

7. ALIRTS will calculate totals for a section or the entire report. Click on any “click to total” button within a section to calculate all of the totals in that section. Click on the “click to total” button at the end of the report to calculate all of the totals in the report.

8. When you have completed the report, scroll down to the end of the report and click on the “Validate & Save” button. If there are error messages in the “Errors and Warnings” box, you cannot submit the report. You need to correct and clear all the “Fatal” errors. For “Confirm” and “Explain” errors, you need to check the box under “Confirm” and type in your explanations. After you have completed this, click on the “Validate & Save” button again. When all the “Fatal” errors are eliminated then you are ready to submit the report. Click on the “Submit” button and a screen will appear asking you to certify the accuracy of the report. If you agree with the terms, click on “OK”. The report is now being submitted. A confirmation of the submitted report will appear. Click on the “Print” button for a hardcopy of the confirmation and keep this as your official record.

9. After the report has been submitted you can view the report in the ALIRTS system. Log into ALIRTS, go to the ALIRTS Home page and search for the OSHPD ID number or name of your facility, then select “view reports”. The report will be listed with a status of “Submitted Original”. Select “View” to review the report. If you need to make any changes to the report, select “Revise”. You will open a copy of the originally submitted report. Make necessary changes and re-validate before submitting the report again. (While the report is being revised it will have the status of “In Process”). At this point, you will only be able to “View” the original report. When the “In Process” report is submitted the status will change to “Submitted Revised”.

GLOSSARY
ANNUAL UTILIZATION REPORT OF SPECIALTY CLINICS

CAPD (Continuous Ambulatory Peritoneal Dialysis)

A fresh bag of dialysis solution will be drained into the abdomen. After 4 to 6 or more hours of dwell time, the solution which now contains wastes will be drained into the bag. The cycle will then repeat. No machine is needed for CAPD. Typically three or four exchanges are prescribed during the day and one evening exchange with a long overnight dwell time.

CCPD (Continuous Cycler-Assisted Peritoneal Dialysis)

CCPD uses an automated cycler to perform three to five exchanges during the night while the patient sleeps. In the morning one exchange with a dwell time will last the entire day.

Encounters

Count one encounter each time a patient is seen by a medical professional provider who exercises independent judgment in the provision of medical and/or health services to the patient and records the encounter in the patient’s record.

Facility Name

This is the name under which the facility is doing business (DBA name). This name may be an abbreviation of and may differ from the facility’s legal name. It is listed on the license as the name of the facility being operated by the licensee.

License Category

The license category describes the licenses issued to specialty clinics by CDPH, Licensing and Certification Division. License categories include Alternate Birthing Center, Psychology, Surgical, Dialysis, and Rehabilitation.

Licensee Type of Control

This describes the type of organization, either public (governmental) or private, that owns the license. The categories are listed below:

- City and/or County
- District
- Non-Profit Corporation (incl. Church-Related)
- University of California
- State
• Investor – Individual
• Investor – Partnership
• Investor – Limited Liability Company
• Investor – Corporation

**OSHPD ID Number**

This is a nine-digit facility identification number assigned by OSHPD for reporting purposes. The first three digits indicate the type of facility, the next two digits indicate the county in which the facility operates, and the last four digits are assigned to identify the facility.

**Parent Corporation**

This describes the corporation of which the facility is a subsidiary or a division. The license may be held by the facility or the parent corporation.

**Project Number**

A number issued to the facility by Facilities Development Division, OSHPD, to identify construction projects.

The project number for building projects costing $1,000,000 or more consists of an 8 digit alpha-numeric number in the following format:

- **First digit:** The letters S, H, or I, indicating the type of equipment.
- **Second digit:** The letters S or L, indicating the issuing office (Sacramento or Los Angeles.)

**Surgical Operations**

A surgical operation occurs when one patient uses an operating room. Therefore, a surgery involving multiple procedures (even multiple, unrelated surgeries) performed during one scheduling is to be counted as one surgical operation. Another definition of a surgical operation could be a “patient scheduling”.

Unduplicated Patients

Count each patient only once even if the patient went to the clinic several times for pre-surgery and post-surgery visits during the reporting year. If the same person returned to the clinic for a different surgery, then this patient should be counted again.
